The woman behind The Ashvini.

Dr. Ashvini Sundararaju is a finance scholar, educator, title-holding queen and advocate whose mission stretches from lecture halls to community welfare across India.

Raised in India in a home where education was treated as an inheritance, Ashvini earned her PhD in Finance after years of rigorous research, mentorship and published academic work. She has lectured across institutions, mentored students and spoken at academic events including GRG and partner colleges.

In 2026 she was crowned Queen Coimbatore by Fashion Collective — a milestone that crystallised a mission built through earlier pageant titles including Mrs. Radiance, Mrs. Popular, and awards for personality and public speaking. She has claimed the stage unapologetically as a proud plus-size woman, choosing visibility as an act of representation.

Beyond academia and pageantry, her work continues through speaking engagements, women's empowerment events, brand collaborations and community welfare — including food distribution and volunteer programs. Her message is simple: pursue education fearlessly, embrace individuality, and build a confidence that comes from within.
